- Caching
- Heroku
- Service Workers
- jQuery

PROFILE

I am currently seeking a full time job as a Full-stack Developer, to build upon my existing knowledge and push myself further in this field. I have industry experience working as a Junior Full-stack Developer and always up to the task of learning and developing.

I am a hard working individual, who always strives to complete tasks at the best of my ability. Always eager to development my knowledge of all technologies. Great at working in a team but also efficient at working on my own initiative.

WORK EXPERIENCE

Junior Full-stack Developer, AquariusIT, Sutton Coldfield — Nov 2023 - Present

- Working within a team to develop and deploy several applications up to high standards to a large customer base.
- Development Lead on small solo projects for customers and in-house use, both on mobile and web.
- Proficient with a multitude of technologies like VueJS, ObjectionJS, KnexJS, ASP.NET, PHP, C#, Maui (Mobile Development).
- Designed a backend API using NodeJS and ExpressJS. Authentication and authorisation using JWTs
- Build complex UIs predominantly using either VueJS or Maui
- Use Agile workflow with Shortcut and Github

Bar Associate, Wetherspoons, Sedgley — Aug 2021 - Nov 2023

- Interact with customers
- Serving customers food/drink orders
- Dealing with enquiries on the phone
- Planning and assisting with charity days such as bake sales and family functions

UNIVERSITY OF BIRMINGHAM CODING BOOTCAMP

I completed a 24 week full stack web development bootcamp at the University Of Birmingham. I completed 23 modules and 3 team projects with various different web technologies that ranged from simple HTML/CSS websites to full stack GraphQL, React applications.

Portfolio: <https://amillsy.github.io/Portfolio-Showcase-React/>

In each project I had to work with 3-4 other team members to produce an application based on requirements outlined by the course leader. In all of these projects I was nominated team leader. Being a team leader involved figuring out team members abilities and then delegating tasks based upon my findings, whilst also being a major contributor to each of the projects myself.

Grade: 100% A+

Notable Modules and Projects

- Module 1: HTML, CSS and Git
- Module 3: Javascript
- Module 5: Third party apis
- Module 7: Project 1 (ChatGPT and Google Maps Integration)
- Module 9: Node
- Module 12: SQL
- Module 15: Project 2 (Full stack Blog with AWS integration)
- Module 18: NoSQL (MongoDB)
- Module 20: React
- Module 23: Project 3 (Social media platform for developers)
